Hour Dollars

Neighbors Sharing Skills

Hour Dollars is a service exchange group designed to build community and help neighbors exchange skills and time.

Hour Dollars was founded in St. Paul in 1998, and is open to anyone in the Twin Cities and surrounding suburbs.

As an Hour Dollars member, you earn hours by providing a service (such as piano lessons, driving, etc.) to another member. You then use your earned hours to receive a service from any other member. You decide what services you would like to offer.

Everyone's time is valued equally; one hour of service equals one hour of credit regardless of the type of service provided. A computer database keeps track of services provided and used.

Joining is easy. Just attend an orientation that is listed on our website. For attending the orientation you will get three (3) free Hour Dollars to get you started exchanging services.
